

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group (CG) and the experimental group (EG). The CG was exposed to a control environment (CE) and the EG was exposed to an experimental environment (EE). The EE was designed to simulate a real-world environment with various stimuli (e.g., visual, auditory, and tactile) and a complex task. The subjects were exposed to the EE for a period of 10 days. The results of the experiment are shown in the table below.

ID Number: 143381

1. The name of the corporation is

10 Dorrance Street, Suite 530, Providence, RI 02903

450 Veterans Memorial Parkway, Suite 7A, East Providence, RI 02914

(a date not prior to, nor more than 30 days after, filing this statement)

Date: 6/14/13
